

## Döcke Intake vent K-500

### 1. Product description and usage.

Döcke Intake vent (further – «product») designed to organize fresh air inflow to the room. The product equipped with sound insulation and air filter systems, and also has a function of manual air supply adjustment. The kit includes: the product and installation guide.

Inner side

Outer side

### 2. Geometrical parameters.

№	Indicators description, units measurements	Value
1	Total length, mm	571
2	Channel length, mm	500
3	Pipe diameter, mm	132
4	Outer air screen diameter, mm	150
5	Air inlet screen diameter, mm	175

### 3. Physical and mechanical properties

№	Indicators description, units measurements	Value
1	Operating temperature range, °C	from -40 to +80
2	Impact resistance at t - 20°C	yes
3	Resistance to UV impact	yes
4	Raw material	polypropylene

### 4. Logistic characteristics

№	Indicators description, units measurements	Value
1	Weight 1 piece, kg	2
2	Quantity in a package, pcs	1
3	Package dimensions (LxWxH), mm	630x180x180

### 5. Rules of storage.

- Transportation of products should be performed on vehicles with covered or tilted bodies.
- The goods must be stored only within manufacturer's original packaging
- The goods must be stored in conditions that prevent contact with moist and direct sunlight
